Switchboard R-FVE-M4

R - FVE - M4

Wall mounting. IP40/20. Input switchboard (at the inverter) for 3F FVE (typically Goodwe 4 to 10K-DT, Goodwe 4 to 10K-ET inverter). Small size, possibility to "stack" with other AC switchboards next to each other or underneath each other. Possibility to install even in a space where space is a problem. The switchboard is equipped with an AC overvoltage arrester and a B16/3 circuit breaker to protect the input to the inverter.

PRODUCT DESCRIPTION

AC switchgear designed for wall mounting, IP40/20 serving as an input switchgear (at the inverter) for three-phase photovoltaic power plants (typically Goodwe 4 to 10K-DT, Goodwe 4 to 10K-ET inverter).

Its advantage is its small size, the possibility of "stacking" with other AC switchboards next to each other or under each other, which makes it possible to install them even in areas where space is a problem.

The switchboard is equipped with an AC overvoltage arrester and a B16/3 circuit breaker to protect the input to the inverter.

Suitable to combine with switchboard R-FVE-DC1, R-FVE-DC2 for the DC part of the installation and switchboard R-FVE-M5+P3F for backup circuits with manual switch (bypassing the inverter) and protector, or switchboard R-FVE-Z3 with current protector, sockets and fuse.

Code	Manufacturer	Product	Description	Number of pieces
280347	EATON	BC-O-1/12-ECO	Switchboard ON plaster, transparent plastic. door, 1 row, 12 modules	1
158331	EATON	SPBT12-280/4	Surge arrester class T1+T2 (B+C), 4-pole set for TN-S	1
286589	EATON	PL6-B16/3	Circuit breaker PL6, char B, 3-pole, Icn=6kA, In=16A	1
