# Switchboard R-FVE-S

## R-FVE-S

Wall mounting. IP40/20. Input distributor (to heat pumps) for 3F pump connection (typically IDM). Small size, the possibility of "stacking" with other AC switchboards next to each other or underneath each other, which makes it possible to install them even in areas where there is a problem with a lack of free space. The switchboard is equipped with circuit breakers C25/3, B13/3, B13/1 and B16/3 for securing the input to the compressor, heating rod, regulator and socket.

## PRODUCT DESCRIPTION

AC switchboard designed for intended for wall mounting, IP40/20 serving as input switchboard (to heat pumps) for three-phase connection of the pump (typically IDM).

Its advantage is its small size, the possibility to "stack" with other AC switchboards next to each other or under each other, which makes it possible to install them even in areas where there is a problem with a lack of free space.

The switchboard is fitted with circuit breakers C25/3, B13/3, B13/1 and B16/3 for securing the input to the compressor, heating rod, regulator and socket.

| Code             | Manufacturer | Product                          | Description  | Number of pieces |
|------------------|--------------|----------------------------------|--|------------------|
| 280347           | EATON        | BC-O-1/12-ECO                    | Switchboard ON plaster, transparent plastic. door, 1 row, 12 modules | 1                |
