Switchboard R-FVE-A40-2

R-FVE-A40-2

Wall mounting. IP65. Manual operation of 3F FVE backup in combination with a switch (typically GoodWe 4 to 10K-ET and Growatt 4 to 10K inverter). Manual transition from mains and backup - switching with zero position. It is necessary to check the load during an electrical failure. energy to avoid overloading after switching the switch, because its function switches the whole house to inverter backup.

PRODUCT DESCRIPTION

AC switchgear designed for wall mounting, IP65 used for manual operation of backup of a three-phase photovoltaic power plant in combination with a switch (typically Goodwe 4 to 10K-ET and Growatt 4 to 10K inverter).

Its advantage is a manual transition from the network and backup - switching with a zero position. It is necessary to check the load during an electrical failure. energy to avoid overloading after switching the switch, because its function switches the whole house to inverter backup.

An indisputable advantage is minimal intervention in the customer's switchboard. The R-FVE-A40-2 switchgear is designed for a main circuit breaker in the column with a maximum of 40 A.

Code	Manufacturer	Product	Description	Number of pieces
174200	EATON	IKA-1/18-ST	Switchboard ON IP65 plaster, transparent door, 1 row, 18 modules	1
286589	EATON	PL6-B16/3	Circuit breaker PL6, char B, 3-pole, Icn=6kA, In=16A	1
286519	EATON	PL6-B10/1	Circuit breaker PL6, char B, 1-pole, Icn=6kA, In=10A	1
AZT	AZT	Cable harness	Cable harness	1
SFT440	HAGER	PREPINAC SITI SFT440 (I-0-II) 4P/40A	Group switch (I-0-II) 4P / 40A - output contact up	1
